25X1SUBJECT Ammunition Dump at Kyomip'o, North Korea

NO. OF PAGES 1

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The Communist forces have established their major supply center for the western Korea front at Kyomip'o (125-37, 38-45) which is on the east bank of the Taedong River. Permanent ammunition dumps have been established here.
2. This ammunition dump is about 2 kilometers north of Kyomip'o. The ground is comparatively level, and the dump consists of eight mound-like structures.
3. The eight concrete structures forming this dump are each about 50 meters long, 30 meters wide and 15 meters high. They are partially underground; 10 meters being below the surface and 5 meters above the surface. A door is on each side of the structures. These structures are surrounded with a wire fence, and trenches 5 meters deep and 5 meters wide have been dug outside the fence. One company of troops is garrisoned at this dump for its protection. A road has been constructed from this dump to the railway station and to the wharf at Kyomip'o.
4. The Communist forces intend to use these structures as blockhouses if defense of this area becomes necessary.
